

*semantic-focus*

```
graph TD; A[semantic-focus] --> B[Who COMES?]; C[focus] --> B;
```

The diagram consists of three main elements. At the top, a rounded rectangular box contains the text *semantic-focus*. A black arrow points from the bottom-left corner of this box down to the word 'Who' in the central text. At the bottom, another rounded rectangular box contains the text *focus*. A black arrow points from the top-right corner of this box up to the word 'COMES?' in the central text. The central text 'Who COMES?' is written in a large, black, serif font.

Who COMES?

*focus*
